SPECIAL COMMITTEES

- Airport: Wallace McLean went to Noise Compatibility Planning meeting with airport: preliminary planning, they are asking for what we'd like to see at the airport and its impact on the neighborhood. There is a lot of noise and fuel pollution. In the next meeting ask about why there are more planes even though there is a north runway. We will have to find out where the 16 noise monitors are at, when were they last updated; what time of day they got their readings for the study, and are they planning on doing any additional soundproofing plan for neighborhoods. We need to complain about the noise and ask for monitoring reports from continuous monitoring sites.
